### **REQUEST FOR CORRECTION OF THE INVENTORSHIP**

1. The request for correction of the inventorship under 37 CFR 1.48(a) filed April 28, 2005 has been DENIED.

The request for correction of the inventorship fails to provide a complete declaration by the actual inventors as required under rule 1.63. The newly submitted declaration is missing the resident, citizenship and mailing address of the new added inventor Ming Che Wu.

### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The prior art fails to teach a combination of all the limitations as claimed in the independent claim 1, wherein the claimed invention comprising two retainers respectively formed on opposite sides of the first frame to correspond to the ribs of the second frame, each retainer comprising an upper clamping plate, a lower clamping plate and a space defined between the upper clamping plate and the lower clamping plate, wherein each retainer has at least one restricting groove defined therein to correspond to a respective rib of the second frame so that combination of each respective rib and each respective restricting groove by inserting a portion of the temples into the retainer is able to combine the first pair of eyeglasses and the second pair of eyeglasses, as claimed. The prior art does not disclose or fairly suggest, by themselves or in combining with any other reference, to meet a combination of all the limitations as claimed in claims 1,11,12. Therefore claims 1-12 could be allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
